

Preliminary Programme

UNIFE at InnoTrans 2010

Hall 4.2, Stand 120 | 21-24 September | Berlin, Germany

“The future of mobility” is the motto under which more than 220 rail technology producing companies will gather in Berlin for the largest rail exhibition worldwide, InnoTrans. To pay tribute to this motto, UNIFE decided to combine all its Public Affairs, Technical Affairs, and Research and Development activities into a **one stand** concept.

The highlights of UNIFE’s presence at the InnoTrans 2010 will undoubtedly be the launch of the **new ERTMS logo** alongside the programme developed by the UNIFE Railway Systems Unit to present UNIFE European R&D projects, and of course the launch of the 2010 edition of the **UNIFE World Rail Market Study**.

In addition to this, UNIFE introduces the ‘An Espresso with...’ format to hear the views of senior rail figures on current issues in 15 minutes – while enjoying a coffee on the appropriately **green UNIFE sofa**.

We are looking forward to welcoming you to our stand in Hall 4.2!
